# Why Invest in a MultiTrailer

## It's a true one person bale hauling system!

### Dump one side at a time

- No re-stacking in the bale yard!
- Weather tight rows

### Handle bales only once before feeding

#### Lower Fuel + Labor Costs/Bale

- Compared to traditional tractor drawn bale movers
- Compared to hay racks

### Haul 20,000 pounds of anything you want!

- Bales (Round & Square)
- Tractors & Equipment
- All Flat Deck Loads

### Lower Capital

- Only one front end loader required on your farm

## Convert from Flat Deck to Bale Trailer in 45 seconds!

## Standard features that pay you back every year

### Standard Configuration:

- 26ft or 31ft Decks
- Rubber torsion 8000 lb axles with brakes
- 2 5/16" Female Ball or RV Hitch
- Durable 2 mil thick urethane paint
- 235/85R16 14-ply Load Range G tires
- Brake lock for loading, saves auto transmission

### Heavy Front Jack

- 10,000 lb rating
- Extended crank for safe, quick dollying even when loaded

### Loading Ramps Included

- Ramps support 11,000 lbs per Axle
- 7ft long for reasonable slope
- Stow under the frame to leave the deck clear for your load
- Rear stabilizers

### Dependable LED Lights & Reflective tape improve safety

- Meets DOT Requirements in all of North America
- Protected wiring keeps maintenance to a minimum
- Flashing rear mounted amber LED Beacon (Optional)

*One person, One MultiTrailer, One Tractor, One Truck - Final stack 200 Bales per day on an 8 Mile Haul!*
